

GENERAL ORGANIZATION

Baer Engineering and Environmental Consulting, Inc. (Baer Engineering) was founded in February 1992. Originally founded to serve government and industry in their compliance efforts, Baer Engineering currently provides environmental, civil, facilities, and water resources engineering, and industrial hygiene and safety services to commercial, industrial, institutional, and governmental clients. Since 1992, Baer Engineering has developed a reputation for delivering quality work products on time and on budget while providing high quality engineering and environmental services on challenging projects. Our ability to exceed client expectations has enabled us to grow our clientele list to include municipal, state, and federal agencies; light and heavy industry; commercial developers; educational and lending institutions; building owners; and other architectural and engineering firms.
